

# OPEN CALL

The Department of Architecture at **Epoka University**, supported by “**Design al Centro**” (international network for integrated and multi-scale designing) and together with a list of international scientific partners, is pleased to launch the

IV edition of **SpaRe.Life 2019 | IWS**, titled:  
**PG | Pocket Gardens:**  
**Ephemeral Regeneration of super-blocks in Tirana**

It is a full-time experience of learning, researching and designing that provides participants an opportunity to reflect on the multi-scale urban regeneration of the informal fabric in the capital city Tirana, considering “informality” as a possible added value in both the development and the transformation of the real city.

Application deadline

**28 APRIL 2019, 00:00 GMT**
